About the Evaluation

Report Creator	BrandExtract
Evaluation Commissioner	Access Sciences
Evaluation Date	1/13/2026 – 3/2/2026

Executive Summary

This accessibility evaluation reviewed a representative sample of 21 pages from the Access Sciences 2026 website against WCAG 2.2 Level AA. Of 55 success criteria reported, 40 passed, 0 failed, and 13 were not present.

Overall, the site demonstrates strong baseline accessibility performance across key areas including keyboard operation, focus visibility, structure, labeling, and compatibility. The primary gaps are limited to prerecorded media requirements.

Scope of the Evaluation

Website Name	Access Sciences 2026 Website
Scope	A representative sample of the primary domain web site's HTML content. The audit includes all key components and page types, functional pages with forms and interactivity, and shared components across the site. This audit does not include linked files such as PDFs, or other non-HTML content.
WCAG Version	2.2
Conformance Target	AA
Accessibility Support Baseline	The accessibility support baseline for this evaluation includes the latest versions of major desktop browsers (Chrome, Safari, Firefox, and Edge) on Windows, and macOS. Assistive technologies include JAWS on Windows. The site is expected to be operable using keyboard-only navigation and standard touch interactions.
Additional Requirements	Evaluation included a combination of manual testing and automated scanning tools to identify accessibility barriers. A representative sample of 21 pages was selected to include all component and page types, and all interactive or functional pages.
